## JOB OBJECTIVE

Passionate and skilled front end developer with expertise in Angular technologies, Angular, JavaScript, and TypeScript. Targeting challenging opportunities in Hyderabad, Bangalore, or Chennai to leverage technical skills and drive innovation in web application development.

## CORE COMPETENCIES

- Agile Methodology
- Project Management
- Web Development
- Technical Documentation
- Front-end Development
- Cross-Functional Collaboration

## IT SKILLS

- **Languages:** JavaScript, Typescript, SQL (SQL Server/MySQL),HTML/CSS
- **Frameworks:** Angular
- **Developer Tools & Packages:** Git, GitHub, VS Code, Visual Studio,NPM

## SOFT SKILLS

- Time Management
- Analytical
- Communication
- Problem-Solving

## EDUCATION

- Btech EEE from Gudlavalleru Eng College JNTUKUniversity, Gudlavalleru | 2021
- Diploma from Dhnaekula Institue of Eng and Technology| 2018
- SSC from Flora Eng medium School,Vuyyuru|2016

## PERSONAL DETAILS

- **Date of Birth:** 3rd June 1999
- **Languages Known:** English, Telugu & Hindi
- **Address:** Hyderabad, Telangana, India

## PROFILE SUMMARY

- Showcasing **over 2.5 years** of experience in Angular with hands-on experience as a front enddeveloper in the IT sector.
- Holder of bachelor's degree in EEE from Gudlavelleru Eng College, Gudlavalleru, India,with a strong foundation in web development.
- Contributing as a Software Developer at Deccansoft Software Services Pvt. Ltd. in Hyderabad, India.
- Proficient in leveraging JavaScript to develop robust and scalable web applications, showcasing a deep understanding of front-end technologies.
- Achieved increase in application efficiency by optimizing RESTful APIs, resulting in faster data exchange and improved overall performance.
- Expertise in developer tools and packages such as Git, GitHub,Visual Studio Code, and NPMfurther enhancing the capability to deliver high-quality solutions.
- Contributed meaningfully to various projects, including the development of AzureA2Z, SpadeVanity, and D2P Dental.

## WORK EXPERIENCE

**Software Developer | Deccansoft Software Services Pvt. Ltd., Hyderabad | Dec'21 – Present**
**Key Result Areas:**

- Spearheading the development of responsive web applications utilizing Angular, ensuring optimal performance across diverse devices and screen resolutions.
- Orchestrating the seamlessly integrate Angular front-end with back-end services, bolstering data exchange efficiency and enriching overall application functionality.
- Crafting dynamic user interfaces employing Typescript and JavaScript, precisely adhering to contemporary design and accessibility standards to elevate user experiences.
- Actively pursuing continuous learning initiatives, remaining up-to-date on the latest advancements and best practices in front end development, fostering innovation, and refining development methodologies.
- Delivering technical support and troubleshooting expertise to rectify issues, enhance performance, and safeguard the integrity of deployed applications.

## PROJECTS

**AzureA2Z |** Angular, Bootstrap5, Typescript, SQL Server
**Key Result Areas:**

- Led the development of a web application designed to make the learning process easy for the students who subscribe to the AzureA2Z.com
- Collaborated extensively with a diverse, cross-functional team to construct a modern and intuitive web interface using Angular and Bootstrap 5.
- Played a pivotal role in front-end development, utilizing TypeScript to produce code that is both clean and maintainable.
- Partnered with database specialists to design and optimize SQL Server databases, enhancing efficiency in data storage and retrieval.

**Spade Vanity |** Angular, Bootstrap5, Typescript, C#, SQL Server
**Key Result Areas:**

- Contributed to the development of Spade Vanity, an e-commerce web application, alongside a diverse team; application was built using Angular and Bootstrap 5, resulting in a sleek and user-friendly interface.
- Employed TypeScript to elevate the functionality of the front-end, ensuring a seamless and interactive user experience.
- Collaborated closely with back-end developers to implement robust RESTful services using nodejs, facilitating smooth data interaction.
- Partnered with database specialists to design and optimize SQL Server databases, guaranteeing dependable data storage and retrieval mechanisms.

**D2P Dental |** Angular, Typescript
**Key Result Areas:**

- Led the development initiative for D2P Dental, an advanced dental management system, employing Angular and Bootstrap 5 to design a contemporary and user-friendly interface.
- Collaborated closely with back-end developers to implement robust RESTful services using nodejs, facilitating smooth data interaction.
- Integrated the Syncfusion library to streamline HTML to PDF conversion, enabling the generation of essential reports and records.
- Executed the implementation of SQL Server for secure and efficient data management, optimizing database performance to enhance operational efficiency.
