PROFESSIONAL SUMMARY

I like work environments where I can use my skills in DevOps to develop cost-effective solutions for business needs. I am passionate about software development and application life-cycle management (ALM) and the design and architecture of systems and related operation, servers, and networks.

EXPERIENCE

Senior Engineer, Critical IT Solutions, Clarksburg, MD **9/2022 - Present**

- Develop technical evaluations and solutions that solve clients' business needs
- Manage and monitor networks, servers, and client devices while providing level 2 support for assigned customers
- Train junior engineers to ensure that they can provide timely support to clients

Principle Consultant, Zeva, Inc., Vienna, VA **1/2022 – 9/2022**

- Provide technology support and guidance to development staff
- Interface with clients to determine requirements, solution architecture, and timely delivery
- Identify cloud strategies to bridge existing on-premise systems or migrate them to cloud

DevOps Engineer, Enclara Pharmaceutical, Philadelphia, PA **8/2019 – 12/2021**

- Provide interface to database, back-end, front-end, and leadership teams
- Maintain continuous integration and deployment systems for HIPAA environments
- Provide robust solutions between various teams to ensure efficiency and performance

Senior DevOps Engineer, Burgess Group, Alexandria, VA **8/2019 – 12/2021**

- Work with release management and QA to ensure modules are production ready
- Create and maintain continuous integration and deployment systems to HITRUST environments
- Create and maintain monitoring and alerting solutions ensuring prompt resolutions

Senior DevOps Engineer, DealerOn, Inc, Rockville, MD **7/2016 – 8/2017**

- Provide technical analysis, implementation and integration plans for improvements
- Manage and enhance continuous integration and deployment tools and robust web caching
- Apply industry advancements to improve reliability, performance, and repeatability
- Use Ansible to ensure consistent configuration across load balance in front of web servers

EDUCATION

Bachelor of Science, Computer Science **5/2010**
Strayer University
