

# Mathew Michuta

SQL Developer

## Profile

Passionate and experienced SQL Developer with DBA skills. I handle low level SQL code, as well as extraction, transformation, and presentation of data to meet business needs.

## Employment History

### SQL Developer at State of Missouri

November 2023 — Present

- MSSQL SSIS ETL discovery, enhancement, and documentation.
- Automation workarounds mitigating increased State level security.
- System recommendations concerning database design, security, and best practices for enterprise level systems.
- Mentored junior T-sql and SSIS developers.

### Sr SQL Developer / DBA at Contracting, Phoenix

February 2022 — November 2023

- Data Warehouse design, ETL, implementation, and support.
- Utilized SSIS to efficiently load data from MSSQL, Snowflake, and mySQL.
- System recommendations concerning database design, security, and best practices for enterprise level systems.

### Sr SQL Developer / DBA at WellBiz Brands, Scottsdale

March 2019 — February 2022

- Sole DBA for a mixture of physical and Azure servers containing OLTP and EDW use cases.
- Developed EDW and reporting system enabling Amazing Lash Studio's very first multi-Studio reporting infrastructure in SSRS.
- In response to unplanned system migration from Millennium to Mindbody in 2021, I built and integrated a fully deduplicated Data Warehouse in 5 months.
- Created efficient ETL to SQL from Amazon Redshift as well as Snowflake to have on-prem access to OLTP schema level data.
- Mentored Junior developer in all things SQL/SSRS/SSIS.

## Skills

## **SQL Developer / DBA at OptumRx, Phoenix**

June 2016 — March 2019

- ETL process re-development from the ground up for bringing data in from 13 Oracle instances into SQL Server Data Lake.
- Improved ETL performance from 4 hours to 30 minutes, with logging and deletion checking.
- Solely responsible for data discovery and custom ETL processing, enabling drug manufacturing EDI system that ended up more accurate than the Manufacturer's reports.
- Mentored Junior DBA, as well as C# developers on SQL related items.

## **Sr Developer at Massage Envy Franchising, Scottsdale**

June 2009 — March 2016

- Custom ASP.NET application development for rapidly shifting business needs.
- Expert level Millennium system data mining, cleansing, and extraction for Data Warehousing, as well as Millennium DB index tuning.
- Extensive SSRS development for Massage Envy's multi-clinic reporting for 2000+ self-serve remote users, with ASP.NET role based security.
- SSAS implementation, cubes used in stack-ranked MDX reports in SSRS.
- Extensive fully automated ETL using SSIS.
- Directly consulted by C-Level management, which generated much Ad-Hoc reporting and analysis.

## **ETL Specialist at Direct Alliance, Tempe**

February 2009 — June 2009

- Created and implemented SFTP ETL process handling 2TB nightly load from Australia to USA, using fully automated SSIS packages and automation.
- Assisted coworkers with T-SQL query optimizations.

## **Sr SQL Developer / DBA at Affiliated Computer Services, Tempe**

October 2007 — February 2009

- MSSQL administration, development, performance analysis, and tuning.

- Developed complex SSIS packages for loading, changing, and automation of manual process data.
- Full SSRS implementation, using Microsoft virtualization to roll out 8 SSRS servers without incurring any licensing cost.

### **SQL Developer / DBA at Ace Asphalt, Phoenix**

February 2006 — August 2007

- MSSQL Database troubleshooting, performance analysis via DTA.
- SalesLogix reporting and ERP integration.
- Extensive stored procedure coding in MSSQL 2005 migrating custom code based reports to SSRS.
- Used SSIS to migrate Accounting data from Timberline to Solomon 6.5 to enable multiple test-runs for Accounting to verify reports before go-live.

### **Developer / IT Manager at Tesinc, Phoenix**

January 2000 — June 2005

- Redesigned vendor based recruiting application in VB 6.0 optimized for speed and Crystal Reports integration.
- Designed and deployed application framework for workorder detail and timesheet tracking, using https encrypted .NET WebServices for 130+ multi-office employees.
- Administrated servers for MSSQL, Exchange, IIS, and remote troubleshooting technology to handle reduction in IT staff.

### **Education**

Associates, Glendale Community College, Glendale, AZ

MS2373B: Programming with Microsoft Visual Basic.NET, Interface Technical Training

MS2780: Implementing and Administering SQL Server 2005 Databases, Interface Technical Training

MSASP210: ASP.NET Web Forms Programming with Visual Studio 2010, Interface Technical Training

ASP.NET MVC Programming Using C#, Hands On Technical Training

MSBI778: Implementing Microsoft SQL Server 2012 Analysis Services (SSAS), Interface Technical Training
