Tools and Technologies:	IIS 5/6, Visual Studio.Net 2003/05/08
Database:	SQL Server 2008
Web Technologies:	ASP, CSS, HTML, XML, .net core, Angular, react js
Share Point Technologies:	SharePoint 2010/2013/2016, SharePoint Online (Office 365)
Operating Systems:	Windows 2000/2003/XP/Vista
Scripting Languages:	JavaScript, SharePoint Online, Power Apps, Power Automate, SharePoint Framework, Csom, Jsom, SharePoint 2010, SharePoint 2013, SharePoint 2016, SharePoint 2019, Dynamics 365, Canvas App, Model driven App, Power Portals

PROFESSIONAL EXPERIENCE

Project # 1

PPL Corporation, Allentown, PA
Microsoft Power Apps Developer

Jun 2020 – Present

- Understanding, Analysis of user Requirements.
- Created Web Applications and Site Collections & Sub sites.
- Customized the look and feel of sites in SharePoint 2013.
- Involved in Migration from SharePoint 2013 to SharePoint Online.
- Building Series of PowerApps Applications.
- Building Workflows using Power Automate.
- Created Custom Content types and Site Columns & Site Definitions in Visual Studio.
- Custom Solutions Deployment.
- Removing Yammer Licenses using PowerShell Script.
- Fixed All Issues while conducting unit testing.
- Very good experience with building canvas applications, model driven apps and power portals
- I was involved in the creation of canvas and model driven apps.
- I created mobile apps using canvas apps like (Internal memorandum, Service management application)
- I created APIs using .NET core and I consumed the APIs using Power platform custom connectors
- I built solutions using Data verse
- I also have good experience with Power Fx.
- I also consumed 0365 APIs using Graph API.
- 2 years Experience with building canvas apps using Data verse as the Data source
- Experience with implementing security roles, look ups using Data verse
- Good Experience with Docusign Integration

Environment: Angular, ReactJS, typescript, SharePoint Online, SharePoint2013, C#, ASP.Net, JavaScript.Net, SQL Server 2008, SharePoint designer 2013, SharePoint Online (Office 365), InfoPath, Power Apps, Power Automate, Spfx, Power BI, Angular, Csom, Jsom, SharePoint Rest APIS, **Power Pages, Liquid, power portals, Data verse, Power fx, Data verse, Docusign**

Project # 2

Swift Alpha, Charlotte, NC
SharePoint Developer/ Microsoft Power Apps Developer

Sep 2017 – Jun 2020

- Understanding, Analysis of user Requirements.
- Created Web Applications and Site Collections & Sub sites.
- Customized the look and feel of sites in SharePoint 2013.

- Involved in Migration from SharePoint 2010 to SharePoint 2013 environments.
- Created Share point hosted apps & using Sharepoint2013 and Visual Studio 2013 templates.
- Created Custom Content types and Site Columns & Site Definitions in Visual Studio.
- Implemented workflows using share point designer 2013.
- Involved in Migration from SharePoint 2013 to SharePoint Online.
- Building PowerApps Applications and workflow using Power Automate.
- Fixed All Issues while conducting unit testing.
- Very good experience with building canvas applications, model driven apps and power portals
- I was involved in the creation of canvas and model driven apps.
- I created mobile apps using canvas apps like (Internal memorandum, Service management application)
- I created APIs using .NET core and I consumed the APIs using Power platform custom connectors
- Good Experience with DocuSign Intergration

Environment: SharePoint Online, PowerApps, Power Automate, SharePoint Framework, Csom Jsom, SharePoint designer 2013, SharePoint Online (Office 365), InfoPath, Power Platform, Power Apps, Power Automate, Spfx, Power BI, Angular, Csom, Jsom, SharePoint Rest APIS, Canvas App, Model driven App, Power Portals, DocuSign.

Project # 3

Carlisle & Gallagher, Charlotte, NC

Dec 2016 – Aug 2017

SharePoint Developer/ SharePoint Architect

Description: Provide a system easy to use for users belonging to different departments. A list of pending tasks Categorized by different departments will be available for all the departments which can be referred during the process execution.

- Understanding, Analysis of user Requirements.
- Created Web Applications and Site Collections & Sub sites.
- Customized the look and feel of sites in SharePoint 2013.
- Created Share point hosted apps & using Sharepoint2013 and Visual Studio 2013 templates.
- Created Custom Content types and Site Columns & Site Definitions in Visual Studio.
- Developed and designed Info path forms and integrated them into the Form Libraries with Share Point 2013.
- Implemented workflows using share point designer 2013.
- Custom Solutions Deployment.
- Fixed All Issues while conducting unit testing.
- Very good experience with building canvas applications, model driven apps and power portals

Environment: Angular, reactjs, typescript, SharePoint 2013, O365, C#, ASP.Net, ADO.Net, SQL Server 2008, JavaScript, SharePoint designer 2013, SharePoint Online, PowerApps, Power Automate, SharePoint Framework, Csom, SharePoint Online, PowerApps, Power Automate, SharePoint Framework, Csom, Jsom, SharePoint 2010, SharePoint 2013, SharePoint 2016, SharePoint 2019, Dynamics 365, Canvas App, Model driven App, Power Portals

Project # 4

Nextran, Atlanta, GA

Feb 2015 – Dec 2016

SharePoint Developer/ SharePoint Architect

- The ECN Manager is intended to provide a system easy to use for users belonging to different departments at GEA like Engineering, Industrial Engineering, Sales, Purchasing etc. Involved in creating a new eBOM as well as doing any revision on it. The application will provide an option to create a new eBOM through a series of steps. And once an eBOM is created, authorized users will be able to make revisions (Changes) to it through another a series of steps.
