OBJECTIVE

I am a beginner in full stack Java with knowledge in J2EE , Core Java, Front-Technologies, Back-End Technologies, Databases. I am excited to learn and contribute to the development of innovative and efficient applications.

EDUCATION

Computer Science

Bheema(BITS) Colleges, Adoni

07/2018 – 07/2022

- GPA: 6.4/10.

SKILLS

- Proficiency in programming with different Java IDE's like **Eclipse, STS, IntelliJ**.
- Excellent knowledge in **Core Java, OOPs** concepts, **Java 8** features.
- Very Good Knowledge at Collection Framework.
- Good understanding on **Exceptions** and **Exception** Handling.
- Good knowledge on **Multithreading** and **Executor** framework. ?
- Solid understanding of **J2EE** such **JDBC, Servlets, JSP**. ?
- Proficiency in **ORM** tools, Specifically **JPA, Hibernate**. ?
- Exposure to various Java frameworks such **Spring, Spring IOC, Spring MVC, Spring Boot**. ?
- Excellent knowledge on Databases like **SQL, MYSQL**. ?
- Familiarity with **DataStructures, Debugging**.
- Good Understanding of **Java web Services** with real time knowledge using **REST**.
- Very good Knowledge in **Java development**.
- Strong understanding of **Objected-Oriented technology** and standard java development frameworks.
- Extensive knowledge in **Microservices**.
- Having eminence skills in project development and life cycle – SDLC.
- Execute system development and maintenance activities.
- Good in Understanding of **Business logic** and ability to work well as a part of a team and as an individual.
- Knowledge in source code control tools like **GIT, GITHUB**.
- Very Good at project management methodologies- **Agile- Development Methodology** Implemented Agile (**Scrum**) Methodology that includes daily scrum with team.

SOFT-SKILLS

- Strong Java programming skills
- Communication & Interpersonal skills
- Quick learner
- Team player
- Growth Mindset

PROJECTS

- **Payment-Wallet**

- **Language/Technology: Java full Stack**
- Payment-Wallet is built using Java, Spring Boot, HTML, CSS, JavaScript and using MySQL as database.
- It aims to create a reliable and efficient payment wallet application that enable users to manage their finance securely with send and receive amount functionality.
- It offer users a user-friendly platform for wallet funding and transaction history while ensuring safely and privacy of their financial information.
- **GitHub Link :** <https://github.com/pedasanidharmendranaidu/PaymentWalletApp>

- **User-Task-Management**

- **Language/Technology: Java**
- User-Task-Management is built using Java, Spring Boot, and using MySQL as database
- a user-friendly system designed to streamline the process of assigning and managing tasks among team members.
- This platform is built with efficiency, collaboration, and ease of use in mind, providing a centralized hub for users to assign tasks or delegate responsibilities seamlessly.
- **GitHub Link :** <https://github.com/pedasanidharmendranaidu/UserTaskManagement>

- **Quiz-Application**

- **Language/Technology: Java**
- Quiz Application, a dynamic platform designed to engage users in a fun and educational way through quizzes.
- This application is crafted to provide a user-friendly experience for creating, taking, and managing quizzes on various topics.
- **GitHub Link:** <https://github.com/pedasanidharmendranaidu/QuizApplication>

ACHIEVEMENTS AND CERTIFICATIONS

- [APITA] Naandi foundation in association with APITA in the Year of - [2021-2022]
 - I have done my Java Full Stack Development course at Jspiders Academy panjagutta, Hyderabad.
-
