## PROFESSIONAL SUMMARY

Results-driven **ReactJS Developer with 2.4 years** of experience and a proven track record of delivering high-quality software solutions using ReactJS, Redux, JavaScript, Bootstrap, MUI, and NodeJS, targeting a challenging role as Assistant Software Engineer. Good knowledge of **React library, Webpack, Hooks** concepts. Having knowledge on HTML, CSS, ES6. **Driving 15% improvement in development productivity.** Strong communicator with a track record of meeting project goals and exceeding client expectations. Successfully delivered projects like **Post Market Clinical Follow-up (FastPMCF)**, Quick Talent Search Tool (**QTST**), leveraging the power of the ReactJS, Redux, Webpack in the development process, enhance efficiency, and improve customer experiences. **Ready to contribute to your organization's success and drive impactful solutions.**

## SKILLS AND ACCOMPLISHMENTS

- **Programming Languages:**, JavaScript,
- **Web Technologies:** ReactJS | Redux | Webpack | HTML | CSS
- **Frameworks:** Bootstrap, Material UI, NodeJS
- **Databases:** MySQL
- **Version Control & Collaboration:** Git | GitHub | Bitbucket
- **Tools:** Postman API | SonarQube
- **Problem-Solving**
- **Communication**
- **Other Skills:** Agile Development Methodology | JIRA
- **Earned the Rising Start Award in Aug 2023**, showcasing exceptional teamwork and delivering outstanding results.

## WORK EXPERIENCE

**REACTJS DEVELOPER** | SARACA Solutions Pvt. Ltd., Noida

### Project1 | Post Market Clinical Follow-up (FastPMCF)

Live: <https://www.saracasolutions.com/fastpmcf/>

Youtube: <https://www.youtube.com/watch?v=ipMa3uSgFMY>

FastPMCF enables medical device manufacturers manage their PMCF needs and collect real world evidence in a quick turn around time. The platform is uniquely designed to manage multiple surveys and ensure a smooth data capture process.

FastPMCF manages end-to-end cycle of the PMCF survey and enables the medical device manufacturers to get the feedback on clinical evidence from market in a quick turnaround time.

#### Responsibilities:

- Designing, creating and maintaining the application and the part of the development.
- **Analyzing the code and altering the logic which leads to improving readability and performance by 30%.**
- Identity verification service, enhancing the verification process and **achieving a 95% success rate** in accurate identity verification, ensuring regulatory compliance.
- Conducted code reviews, resolving 90% of bugs and enhancing application

**performance by 15%.**

- Develop **interactive and responsive** user interfaces using ReactJS, JavaScript, and Bootstrap ensuring seamless interaction with the **backend APIs**.
- Implement **State management** solution using library like **Redux** to manage complex application states.
- **Collaborated closely with cross-functional teams** to gather requirements, the history tracking report met the needs of both technical and non-technical team to identify and address software defects, **resulting in a 20% reduction** in post-release issues and increased client satisfaction.

## **Project2 | Quick Talent Search Tool (QTST).**

Introducing the Quick Talent Search Tool by Saraca Solutions Pvt Ltd, designed exclusively for HR departments. This user-friendly platform enables seamless registration of HRs, Business Managers, BU Heads, and Team Managers. Managers can efficiently assign positions to HRs, who then source candidates matching specific skills. The tool stores resumes, extracts vital information using advanced parsing technology, and builds a comprehensive database. HRs can easily search and filter candidates based on experience, skills, and location, streamlining the recruitment process for optimal efficiency and effectiveness.

### **Responsibilities:**

- Creating and maintaining the applications and transform design mock ups into interactive web pages.
- Write clean, efficient, and well-structured **ReactJS Material UI framework** code industry best practices.
- Conducted code reviews, **resolving 90% of bugs** and enhancing application **performance by 15%.**
- Develop responsive and user-friendly web interfaces that work seamlessly across different devices and browsers.
- Implement UI components and layouts using **Material UI**, ensuring a consistent and visually appealing design.
- Collaborated closely with cross-functional teams to gather requirements, ensuring the history tracking report met the needs of both technical and non-technical team.
- **Optimize web pages** for performance and fast load times, considering both efficiency and asset optimization.
- Ensure cross-browser compatibility and address compatibility issues as they arise.
- Collaborated with backend developers to integrate front-end components with **backend APIs**.
- Testing code standards and Debugging using the SonarQube testing tool.
- Participate in code review to maintain code quality and share constructive feedback.

## **EDUCATION**

### **PG-Diploma CDAC**

CDAC Center Hyderabad

**Pass out Year (2021)**

### **B.E in Electronics & Communication**

RTMN University, Nagpur, Maharashtra

**Graduation Year (2019)**

### **HSC**

(State Board of Maharashtra)

**Pass out Year (2014)**

### **SSC**

(State Board of Maharashtra)

**Pass out Year (2012)**

## SOFT SKILLS

- Positive Leadership Attitude
- Effective Communication
- Analytical Thinking
- Team-Oriented
- Time Management
- Problem Solving

## PERSONAL DETAILS

- **DOB:** 27th July 1996
- **Languages Known:** English, Hindi, Marathi
- **Address:** Shahapur, Bhandara - 441906, Maharashtra
