To secure a challenging position in a reputable organization to expand my learnings, knowledge, and fully utilize my training and skills, while making a significant contribution to the success of the company.

TECHNICAL SKILLS

ABAP, ODATA, ABAP ON HANA, ABAP S/4 HANA, OOABAP, CDS VIEWS

- ABAP - Gateway Builder, ODATA, REST API's, OOPS ABAP, Basics of Workflow, Enhancements, User Exits, IDOC's, BADI.
- ABAP on HANA - ADT in HANA Studio, CDS Views, AMDP, Table Functions
- Expertise in OData services creation like Associations, Deep entities.
- Expertise in OData services creation like Associations, Deep entities.
- Developed WRICEFs (workflow, reports, interfaces, conversion, enhancements, forms) of all stages of an ongoing SAP modernization and update project. Manage offshore ABAP team.
- Managing and coordinating walk-through between functional lead, business lead and ABAP resources. Managed all technical specifications of all WRICEF objects.
- Ability to understand and map client business requirements and establish customer satisfaction criteria for project success.
- Solid development skills involving ABAP/4 Reports, ABAP Objects, ALV, Data Migrations BDC, LSMW, Smart Forms, SAP scripts, Function Modules, ABAP Query, Dialog Programming, User Exits, Screen Painter, Menu Painter, Data Dictionary and Enhancements, BADIs, BAPI, ABAP objects, Class Builder, Roles Authorization,
- Worked on numerous implementations of different version of SAP on different modules viz. ERP SAP Systems with ABAP/4, SD, MM, IS-Retail, FI/CO, OTC Process Flow, HR modules.
- Experienced in creating the Database tables, Secondary Indexes, Table Maintenance Generator, Views, Structures, Data elements, Domains, Search Helps.
- Experience in use of various ABAP modularization techniques such as Includes Subroutines and Function modules.
- Worked on Incident management and resolved all critical tickets in less time.
- Expertise in using tools like SQL Trace and Runtime Analysis for Performance Tuning.
- Creation and maintenance of Data Dictionary objects like Tables, Views, Structures, Domains, Data elements.
- Experience in developing ALV reports, Forms, interfaces, enhancements,
- Interfaces: BAPI's, RFC's for interface between SAP, Mulesoft, Salesforce and other thirdparty systems.
- Experience in Inbound/Outbound Interfaces with Advanced communications by ALE/EDI with IDOC, RFC's. Created Logical Systems, assigning logical systems to client, FC destinations, maintaining partner profiles and maintaining distribution model view for Inbound and outbound processing of master data. Extended the existing IDOC's
- Extensively worked in Debugging SAP Programs, Performance Tuning, SAP Change and Transport System, and usage of SAP Service Marketplace for SAP Notes OSS Notes.
- Experienced generalist in MM, SD, IS-Retail, FI/CO, HR modules and in using ABAP/4 to enhance, extract the data from, and customize these modules.
- Worked in high performing development teams following agile development methodologies.
- Ability to formulate and define development scope and objectives and devise/modify procedures to solve business problems.

EXPERIENCE:

AROUND 5+ YEARS OF EXPERIENCE AS AN ABAP DEVELOPER

- **HD Supply - (Jan 2023 - Till Date)**
  - Created a custom report to fetch data from application server and created a financial document using standard BAPI for Payroll related data.
  - Identify, Analyze and worked on bug fixing for inbound Idoc's, custom reports and custom Odata services.

- **Adidas TRANS4M (Nov 2021 - Aug 2022) (Deloitte)**
  - Worked on building an interface between MDG and CFIN system for Articles using ARTMAS IDoc message.
  - Created a custom report to read the data from flat files present in application server and created article in MDG system.
  - Created a web service and published it to Informatica team to create Materials, Material groups and Reference Materials.
  - Performed data load for Customer, Vendor and Article master from ECC to MDG and from MDG to CFin Using IDoc's

- **Strata Manufacturing Company (Oct 2020 – Oct 2021) (Mindtree)**
  - Provided technical support for users of business-critical interfaces.
  - Quickly addressed and resolved system failures or code issues to maintain productivity.
  - Worked together with the end user client and SAP functional consultants to take the requirements and test technical solutions for their business processes.
  - Responsible for technical design and development in this project and worked extensively on classical/interactive reports, BADI's, Dialog programming with Table Controls and Smartforms
  - Attend to ABAP requirements, developing new Reports and Forms which will serve as work tools for end-users of the organization. Maintenance and support on SAP ABAP under the Financial Accounting (FI), Materials Management (MM). Use of the ABAP/4 language and its tools: Classic ABAP programming, Object-oriented programming, ABAP Workbench, ALV, Report programming, function modules, SapScript, Smartforms.
  - Provided knowledge expertise in ABAP Performance Tuning and building parallel processing into applications.

- **Deloitte HVLV S/4 Implementation (Jun 2020 - Oct 2020) (Mindtree)**
  - Worked as an ABAP developer (ODATA & Gateway, CDS, OOABAP) and SPOC for Front End Integration of API's in Agile Scrum methodologies to develop an application for deloitte customers.
  - Analyzing of Clients Requirements from Functional Requirements Specification and preparing technical specifications based on functional specifications.
  - Participated in Creating configurations for Project systems and implemented interface with other third party Systems.
  - Involved in creation of function modules, search helps, CDS views and Odata services for database Operations
  - Developed Complex Deep entities, Expand entities and Entities for Media files in Odata gateway services

- **Mindtree Ltd S/4 Hana Migration (Jan 2019 – May 2020) (Mindtree)**
  - Worked on code remediation in migration - ABAP Code Adjustments during DB Migration to SAP HANA, Potential functional issues, Performance considerations, Code inspector tool, ATC - ABAP test cockpit, SAT, ST05, SQLM, SWLT.
  - Took responsibilities of converting non-Unicode system to Unicode system. Performed SPAU and SPDD during S/4 HANA Migration and Post Migration
  - Helped in migrating C-project systems with SAP S4Hana.
  - Supported during Go-live and Post Go-live activities along with performance optimization for critical reports

EDUCATION

Aug 2022 - May 2024

Master of Science, Computer Science

University Of New Haven
