SATISH PINNURI

Email: pinnurisatishjobs@gmail.com | Mobile: 657-319-5655 | LinkedIn | GitHub | Tableau

SUMMARY

- A well enthusiastic and **charismatic techno-functional expert** with around **7+ years** of in Information Technology with **extensive startup experience** in different functional domains.
- Adept in Snowflake, Advanced SQL, AWS, Python, Tableau, Looker, R, MySQL, Postgres, GitHub, Jenkins, Google Analytics, UAT, and Advanced Excel.
- Expertise in data analysis, data modeling, business intelligence, data warehousing, ETL/ ELT, Query tuning, data cleansing, reporting, and data visualization.
- Skilled in creating and maintaining data warehouses and data marts in Snowflake, supporting Data Storage, Processing, Analytics, and Reporting needs.
- Expertise in designing and building **interactive dashboards** and **visualizations** using **Looker**, and **Tableau** providing **actionable insight**s to stakeholders.
- Proficient in **designing**, **developing**, and **optimizing data pipelines** and **ETL processes**.
- Hands-on experience working on **Data Science** and **Machine Learning projects**.
- Strong understanding of data modeling best practices, data integrity, optimal performance.
- Experience in **agile Scrum Projects** and very familiar with **Agile Ceremonies**.
- Proficient in version control using GitHub for efficient collaboration and code management.
- Strong problem-solving, analytical skills, storytelling, and oral communication, with meticulous attention to detail.

TECHNICAL SKILLS

Languages: SQL, PL/SQL, R, Python, Scala, Advanced Excel Databases: MySQL, Postgres, SQL server Data Warehouse: Snowflake Cloud, Amazon Redshift BI and Reporting: Looker, Tableau, Power BI, Google Analytics Cloud Technologies: AWS cloud (EC2, S3 bucket, IAM) Version Control: GitHub CI/CD and Monitoring: Jenkins, Grafana Project Management: JIRA, Confluence Methodologies: Agile scrum, Kanban, Waterfall, User Acceptance Testing, Functional Testing

PROFESSIONAL EXPERIENCE

Data Engineer II | Pixability | Tampa

Jun 2021 - Jun 2023

- Developed and maintained data models and schemas in Snowflake, optimizing performance and scalability. Reduced Snowflake instance cost by 54% and saved \$120,000 YoY.
- Optimized looker dashboard query times by **94%** and **reduced the load time from 45** minutes to less than 5 seconds.
- Reduced Snowflake Storage from **200TB to 130TB resulted in a 35% cost reduction.**

- Converted **70+ derived tables** from Looker to Snowflake Persistent Derived Tables (PDTs) to optimize the dashboard performance.
- Worked on Snowflake advanced concepts like **Resource Monitors, Snow SQL, Snow Pipe**, Zero-Copy Clone, Time-travel, Data Sharing, Tasks, Streams, Virtual Warehouse Sizing, Query Performance Tuning, and implemented Role Based Access Control (RBAC).
- Developed complex Looker Views, Explores, Dashboards, and Visualizations to enable self-service data analytics for the Finance, CS, Sales, and Marketing teams at Pixability.
- Utilized **Git** and **GitHub** for software **development version control** and effective **collaboration** with the development team, **ensuring code quality** and **traceability**.
- Leveraged AWS services, such as S3 staging, for data storage, processing, and analysis.
- **Documented** technical specifications, **data flows**, and **system configurations** to maintain comprehensive **documentation** for **future reference**.

Business Intelligence Engineer Intern | NextSphere Technologies | Tampa Aug 2020 - Dec 2020

- Coordinated with the **Data warehouse team** in data migration from **Amazon Redshift to Snowflake** and **improved performance** by **40%**.
- Automated Snowflake data ingestion using Snowpipe and reduced manual effort by 60%.
- Wrote scripts and built tools to extract, clean, and transform operations and helped in data migration from Redshift to Snowflake.
- Developed POCs on load statistics, and Snowflake Recursive CTE for data Aggregation with 50% process improvement.
- Developed and supported Business Intelligence tools, automated data ingestion, and transparent reporting and communication.

Business Analyst | Mroads | India

Apr 2017 - Aug 2019

- Liaison between Clients, Business, and IT Teams and successfully delivered 3 Agile projects.
- Designed and created various web analytics, mobile and video analytics, Google analytics reports, performed UAT, and dashboards.
- Contributed to analyzing site **performance** and **A/B testing** to generate **critical insights.**
- Conducted **root cause analysis** and troubleshot system data failures, and mapping issues.
- I provided daily/weekly/monthly reporting and analysis to the C-level suite.
- **Communicated** trends and patterns that enhance the opportunities for the business.
- Gathered, Defined, and **Analyzed data requirements** and wrote **complex SQL queries** to extract large data sets for the business to review.

Business Data Analyst | Capgemini | India

- Delivered actionable insights using advanced data analysis and **Tableau** dashboards for **Capgemini** clients.
- Led data ETL processes with **SQL and Python**, ensuring accuracy and completeness.
- Developed **predictive analytics** solutions for business forecasting and improvement.
- Effectively communicate technical concepts to non-technical stakeholders.
- Fostered strong client relationships through reliable **data-driven** support.
- Documented test cases, and **report writing**, and trained the **production support** team.

Jul 2016 - Apr 2017

EDUCATION Master of Science (Information Systems, Business Analytics) (GPA: 4/4) California State University, Fullerton	Aug 2019 - May 2021
Bachelor of Technology (Information Technology) (GPA: 3.8/4) Jawaharlal Nehru Technological University, India	Aug 2012 - May 2016
