## WORK EXPERIENCE

### instED - Senior Software Engineer

Aug 2020 – Present

- Collaborated in the development of extensive features, enriching the product's capabilities and providing enhanced value to customers.
- Skillfully refactored and optimized codebase, resulting in improved performance and a smoother user experience.
- Participated in architecture, design, and implementation of backend features using C#, .NET Core Framework, and frontend in Angular 13.
- Migrated applications from .NET Framework to .NET Core Microservices Architecture and updated old code bases to modern development standards, improving functionality.
- Communicated with the clients to understand their requirements and delivered solutions that meet their business needs.
- Successfully developed multiple projects with proficiency in diverse technologies. Demonstrated strong coding skills and a keen eye for detail. Consistently delivered high-quality results while meeting project deadlines. Continuously expanded expertise to tackle new development challenges.
- **Tech Stack:** .NET Framework 4.8, .NET Core 6.0, Microservices, SQL Server, WebAPIs, REST APIs, AngularJs, Angular 13, Azure, Azure DevOps (CI/CD), Grafana, Angular Material Design, HTML & CSS, JavaScript, Typescript.

### Leadership & Team Activities

- Demonstrated effective project management skills, setting deadlines for features and fixes, and overseeing meetings like Product Retrospective, ensuring timely and efficient team communication.
- Conducted thorough code reviews and provided constructive feedback to team members, resulting in improved code quality, reduced bugs, and enhanced overall development efficiency.
- Provided proactive guidance, support, and collaboration to overcome team obstacles and drive continuous improvement.
- Oversaw team management, effectively evaluating and enhancing the performance of software development professionals.
- Handled development support collaboration.
- Guided and trained junior developers around the way, helping to build a strong cohesive team and engaging with collaborative teams to guarantee the successful delivery of projects.

## SKILLS

### Backend Technologies:

- C# • ASP.Net • ASP.Net Core
- ASP.Net MVC • Razor Syntax
- Blazor • ASP.Net Web API
- RESTful Services
- .NET microservices
- Entity Framework
- ADO.net
- Asp.net web forms

### Frontend Technologies:

- AngularJs • Angular 13
- Typescript • JavaScript
- HTML • CSS • Bootstrap
- jQuery • Kendo UI
- Angular Material Design
- Bootstrap • React • Redux
- Telerik Reporting

### Databases:

- SQL Server • Azure Cosmos DB
- MySQL • PostgreSQL • Oracle
- SSIS / SSRS • Azure Redis Db

### Project Management Tools:

- Jira • Azure DevOps • GitHub
- Bitbucket • Trello • Slack
- MS Teams • Zoho

### Cloud Technology:

- Microsoft Azure
- AWS

### Other Tools:

- Visual Studio
- VS Code
- Postman • Beyond Compare
- SQL Profiler
- Telerik Report Designer
- FileZilla • SourceTree

## **Techlogix – Senior Software Engineer**

*Apr 2017 – Aug 2020*

- Worked as a Full Stack Engineer, built many features of EMR System, performance optimizations, deployments, and customer support.
- Responsible for maintaining WebAPIs and integration of third-party APIs.
- Modeled scheduling of tasks in workflow using RabbitMQ.
- Tested the functions by writing XUnit tests.
- Conducted code reviews to ensure high-quality deliverables.
- Integrated third-party services and APIs to extend application capabilities and improve user experience.
- Incorporated Inventory Management and Pharmacy Point of Sale module to existing EMR application.
- Tech Stack: C#, .NET Framework, NET Core 3.1, Web APIs, SQL Server, Azure Cosmos DB, Azure Blob Storage, Azure DevOps, AngularJs, HTML, CSS, Bootstrap, jQuery, Jira, Bitbucket.

## **Dartican - Software Engineer**

*Mar 2016 – Apr 2017*

- Developed a highly configurable compensation solution designed from the HR perspective using .Net Framework on the back end and React.js on the front end.
- Collaborated with cross-functional teams to ensure the successful delivery of the project.
- Built an interactive and user-friendly component in React.js and followed the best practices to improve the application's functionality and performance.
- Tech Stack: C#, .NET Framework, REST APIs, SQL Server, MongoDB, React.js, AWS, JavaScript, Bootstrap, HTML, CSS.

## **PROJECTS**

**instED** <https://www.insted.us/>

instED provides urgent medical care in the comfort of a patient's home.

**Vicenna HealthCloud** <https://vicenna.com/>

Vicenna HealthCloud is a 360° enterprise solution for hospitals with integrated modules for Finance, Administration, Clinical, and Billing.

**Inventory Management System** <https://vicenna.com/>

Inventory Management and Point of Sale for hospital pharmacies. Integrated newly built inventory application in Vicenna HealthCloud.

**Dartican CompAccelerator** <https://www.dartican.com/compaccelerator>

CompAccelerator is a highly configurable compensation solution designed from the HR perspective.

## **Education**

Bachelor, Computer Science (2012 – 2016)
