EDUCATION

BTech - Information Technology
Usha Rama College of Engineering and Technology, Telaprolu

2019 - 2023   *7.83 cgpa*

Intermediate - MPC
Narayana Junior College, Vuyyuru

2017 - 2019   *8.9 cgpa*

10th - SSC
Ravindra Bharathi Public School, Vuyyuru

2016 - 2017   *9.2 gpa*

EXPERIENCE

Angular Intern
Tot Master

05/2023 - 10/2023

Achievements/Tasks

- In this role working on real-time project, I am actively engaged in developing a Customer Relationship Management (CRM) portal using Angular, a web development framework, under the mentorship of experienced developers with Agile Methodology. The project management and issue tracking aspects are efficiently handled through Jira. Notably, I have contributed to develop code by using user-stories & optimizing the code base by implementing advanced techniques such as lazy loading modules to boost the application's performance. Our project relies on Firebase as the database solution, allowing us to seamlessly handle tasks such as authentication, data storage, retrieval, data filtering, and the creation and retrieval of sub collections.
- **Framework** : Angular 15
- **Web Technologies** : Html , Css , Bootstrap , TypeScript
- **Project Management Tools** : Git, Github, Jira, Firebase

PROJECTS

1) AdminEase & EmployeePortal by using Angular

2) Calculator using Angular

3) Feaching weather by using Api

4) Sign Language Translator Using Tensorflow Api

TECHNICAL SKILLS

Angular   Core Java   HTML   CSS

Bootstrap   TypeScript

STRENGTHS

Problem-Solving Skills

Teamwork and Collaboration

Quick learning

SOFTWARES

JIRA   Git   Firebase   Postman
