WORK EXPERIENCE

11/2005 to Present Delta Computer Consulting, Inc. Torrance, CA

Senior OpenText Documentum Specialist / Developer / Architecture / Administrator

- Over 15 of years of Documentum Consultant for a direct client in the automotive industry.
- Highly motivated and results oriented Senior Documentum Architect/Developer with 20 years experience in managing, architecting, and developing on Documentum's suite of products.
- "Hands On" experience in Enterprise Documentum developments and implementations.
- Single handedly managing the client's five Documentum Production repositories version 5.2.5 SP3 and 7.3 with about 4.5TB of data and ongoing supports, enhancement developments, and architecting future projects.
- Successfully built a homegrown migration tool from the ground for migrating the content and metadata utilizing ETL mechanism, Java, and Documentum API/DFC. This tool has the capability to export the content and metadata, map and transform the necessary data, and build the loading scripts not only for the target Documentum's environments but also for the different target systems or platforms.
- Successfully design, plan, execute, and manage the entire migration effort.
- Collaborated with IT and business users to gather the requirements for the migration needs.
- Successfully achieved data integrity and accuracy by test running/simulating the migration tool and fine tuning the results. Performed data accuracy by comparing the source and target systems post migration.
- Successfully migrated Documentum version 5.2.5 SP3 environments(DEV,QA,PROD) to Documentum version 7.3.
- Successfully migrated one Documentum Production repository with about 2.5TB data to Documentum version 7.3.
- Successfully upgraded Webtop client and major customizations from version 5.2.5 SP3 to 7.3.
- Single handedly managing Web Publisher client and major customizations version 5.2.5 SP3 and ongoing supports, enhancement developments, and architecting future projects.
- Developed a homegrown Documentum SOAP Webservices interface for the client's many internal applications to interface with through SOAP payloads using Apache Axis2 Webservices Framework.
- 20+ Years of Java development of custom objects and methods.
- 20+ Years of strong experience on Documentum 4i, 5.x., and 7.3, 16.x
- Expertise in Documentum products including Content Server, Webtop, WDK, Web Publisher, ApplicationXtender,WCM, Documentum Composer, DFC, BOF, DQL, XML, XSL, XSLT, Java, JSP, JQuery/JavaScript, CK Editor, ImageMagick, Workflow Manager, Eclipse, Apache Axis2 Webservices Framework, Apache Tomcat, Application Builder, and Application Installer.
- Extensive knowledge in customizing Documentum WDK, Web Publisher client, and Webtop client.
- 20+ Years of SQL, Microsoft SQL Server, SQL Server Management Studio, and XML experience.
- Current "Hands On" .NET development experience with Microsoft SharePoint and Microsoft Yammer.
- Extensive knowledge of Eclipse and Microsoft Visual Studio development tools.
- A team player with excellent work ethics along good communication and interpersonal skills.
